MAKO Orthopedic Robotic Assist Knee Replacement

In January 2023 an article was published in the Bulletin on the MAKO orthopedic robotic assisted knee replacement system. This is a follow up article collaborating with Dr. Seann Willson to determine the patient benefits from the MAKO System in her orthopedic practice, with eight years of MAKO experience. The original article is included at the end of this article.

Dr Seann Willson, has incorporated the MAKO Robotic System into her practice since 2015. One of the most significant advantages of the MAKO system is the ability to provide greater precision and customization of the surgical procedure for each patient. This technology will customize each patient's specific anatomy with the implant. The MAKO Orthopedic Robotic System is a revolutionary knee replacement surgery combining the expertise of the surgeon with the precision of robotic technology. The greater precision and customization for each specific patient with the MAKO System allows for a precise implant placement.

The Benefits

Precise implant placement which increases native bone preservation.

In the post-operative period, the patients experience faster recovery times with less pain.

A reduction in post operative pain medications is a common benefit to the procedure.

Faster post-operative recovery times are also commonly observed by Dr. Willson.

Patients may return to daily activity or work in a shorter period of time.

This procedure may not be indicated in all patients. A preoperative screening must be performed by a qualified orthopedic surgeon.

I am very pleased this technology is offered in Genesee County.

For questions or comments please contact:

executivedirector@gcms.org

DAVID HOFF, MA, CCP

The Mako Orthopedic Robot is Available in Genesee County

One of the newest developments in technology for orthopedic surgery has been the evolution of Robotic Assisted surgery for joint replacement procedures. The Stryker MAKO Robotic System obtained FDA approval in August of 2015, as a robotic assisted orthopedic surgical assist.

The MAKO SmartRobotics System combines three key components:

1. A 3D CT based preoperative plan
2. AccuStop haptic technology
3. Data analytics

This is put into 1 platform for greater surgical precision and improved patient outcomes.

The MAKO System utilizes a 3-Dimensional(3D) CT study as a preoperative guide. This offers a plan unique to each patient that the surgeon can review before the surgical procedure. Additionally, MAKO allows for accurate and optimal implant positioning unique for each patient. This can mean preserving soft tissues for some patients; for others, saving healthy bone.

The surgeon is in control of the robotic system, maneuvering it with their hands and utilizing the feedback from the AccuStop haptics for a more accurate placement of the hip or knee implant. By guiding the physician during surgery with the robotic assist arm, Mako's AccuStop™ technology allows the surgeon to cut precisely and cut less, preserving bone.

The advantage of the MAKO System is greater precision and customization for Knee & Hip replacement surgery. The goal of the Mako System is to provide additional flexibility and better fit by providing more precision and consistency during placement. This may lead to less wear and tear over the life of the artificial joint.

There are only approximately 1400 MAKO Robotic Assist Systems used worldwide. I am very pleased this technology is available in Genesee County.

This article was written in collaboration with Dr. Seann Willson, MD

MULTIDISCIPLINARY SPINE CARE

Dr. Moisi
Spine Neurosurgeon

Dr. LaBarge
Interventional Radiologist

SPINE PAIN HAS MET ITS MATCH

Dr. Marc Moisi, Director of Neurosurgery at Hurley Medical Center, and Interventional Radiologist Dr. LaBarge provide patients statewide with multi-disciplinary spine care for complex issues, second opinions, and innovative treatment.

Dr. Labarge, Medical Director for Radiology is an interventional radiologist which is a specialty service often utilized by Dr. Moisi and our Trauma Team to complete imaging studies and intervention such as cranial angiograms and various types of embolizations. Hurley's Spine Team is trained to utilize minimally invasive techniques in the treatment of injuries to blood vessels and nerves within various regions of the brain and spine.

Whether it is neck/back pain, sciatica, deformities, spine trauma or tumors, the multidisciplinary spine team at Hurley Medical Center is prepared to develop a specific plan, tailored, to best meet your needs.

Dr. Moisi's goal when working with patients "is to develop an individualized patient-centric treatment plan to get the most positive results."

- Provide QuickBooks Online set up and consulting.

Your Membership at Work

- ◆ GCMS hosts monthly Practice Manager's meeting discussing complicated insurance issues in round table discussions with various insurance companies. If you find on-going insurance issues, please reach out to GCMS staff at executivedirector@gcms.org and we can connect that insurance company representative with our hard working Practice Managers.
- ◆ GCMS staff helped Genesee County residents with contacts, resources and explanations.
- ◆ GCMS Membership Committee has collaborated and has a plan in place to reach out to and meet with various practices in Genesee County. If you have colleagues that are not yet GCMS members, please connect with them!
**** A flyer of GCMS benefits can be provided to you.

Improving Michigan's Health Care Environment

- Maintain legislative intent and enforceability of all medical liability tort reforms
- Ensure patients have timely access to physician-prescribed medication
- Preserve appropriate access to telehealth care
- Advocate for adequate and transparent physician networks
- Reform Michigan's continuing medical education requirements
- Limit insurance company retroactive audit time frames
- Support out of network medical bills appeal process for independent review of disputes

Advancing Public Health and Health Equity

- Strengthen Michigan's public health infrastructure and vaccine laws
- Address social determinants of health and other systemic inequities
- Support appropriate funding increases to Medicaid reimbursement and the Healthy Michigan Plan
- Ensure equitable access to health care for all Michigan children and adults
- Improve sustainable funding for maternal health
- Advocate for public health solutions to violence and enhanced gun safety
- Discover ways to improve health literacy education for Michigan's K-12 students
- Expand access to mental health and substance use disorder treatment

Ensuring Access to Physician-Led Care

- Increase graduate medical education funding at state-level
- Minimize burden of medical school debt through state reimbursement
- Increase funding for sustainable staffing levels in hospitals and physician offices
- Support physician-led, team-based health care for Michigan patients
- Oppose independent prescriptive authority by non-physicians
- Support patients' right-to-know through health professional credentials disclosure
- Fund programming to reduce physician burnout and improve well-being

COVID-19 VACCINE

The COVID-19 pandemic demonstrates how diseases without vaccines can devastate economic and public health. Vaccines have reduced and, in some cases, eliminated many diseases. In the U.S., there is currently no approved vaccine to prevent COVID-19. MDHHS is working with the CDC and Michigan stakeholders to prepare and plan for when the vaccine is available. The initial draft of our state's plan is now available and will be updated often in the coming months. Visit regularly for the most recent information on the COVID-19 vaccine and Michigan's preparations.

THE ALLIANCE FOCUS

Our book club was started back with Raquel Yapchai and Maria McCann as the Presidents. It has been active since that time and is still going strong. We began meeting quarterly at a member's home doing potluck lunch and discussing the book. We read many, many good books that we may not have read by ourselves. We are now meeting at the beautiful redecorated Flint Public Library. We bring our own lunch and enjoy discussing the book. We have a group now of 12 or so members. Due to the limited space at the library, we could possibly add a couple others to this group. If interested please contact Cheryl Thoms or Vijay Sayal (our president) to add you on our phone list. We meet bi-monthly at the Flint Public Library at 11:30 am. We have the room reserved until 2:30 but are usually out before that.

Hope and health

in the community

*Supporting recovery,
prevention, health,
and wellness of the
body, the mind, and
the community.*

HEALTH SYSTEM

GHS Intensive Crisis Stabilization Services for Children and Young Adults

The GHS Children's Intensive Crisis Stabilization Team (ICSS) provides mobile crisis stabilization services, 7 days a week between 8:00am and 7:00pm to all children, youth, and young adults (ages 0-21) who reside in Genesee County. Calls during other hours are helped by our Crisis Line mental health professionals.

Reasons to call GHS:

- If you feel your child/youth is in a crisis
- The child/youth may hurt themselves or others
- The child is experiencing overwhelming confusion, anger, or emotional unresponsiveness

If you aren't sure if ICSS is needed, give us a call and we can help to explore options.

What happens when the GHS Intensive Crisis Team is called?

The team will provide an on-site intervention with the identified child or youth, and their support system. The team's main focus will be to help assess the crisis, utilize de-escalation techniques, help the child/youth and their family or support system to help with what is needed and to help determine next steps and long-term care.

Other services include:

- Crisis and Safety Planning
- Referrals to needed services
- Education on resources, diagnosis and services
- Collaboration and problem solving

* Psychiatric consults, as needed (does not include medication review for prescription)

** Intensive Crisis Stabilization services cannot be provided to individuals who are currently residing in inpatient settings: Jail/detention centers or residential settings (i.e. child caring institutions, crisis residential, etc.).

GHS Intensive Crisis Stabilization Services for Children

810.257.3740 877.364.3648

420 W. Fifth Avenue, Flint 48503 • www.genhs.org

Supported by funds from Substance Abuse and Mental Health Services Administration, Center for Mental Health Services through the Michigan Department of Health and Human Services.

Easy Ways to Donate to the Medical Society Foundation:

The Medical Society Foundation is engaged in a Capitol Campaign. The purpose of the Campaign is to grow the corpus to support the charitable activities of the Genesee County Medical Society. Those activities include public and community health, support for the underserved, and wellness initiatives.

To continue its good work, the Medical Society Foundation is asking you to consider leaving a legacy gift to the Foundation. If all, or even a significant portion of our membership left just a small part of our estates to the Foundation, the Foundation could continue helping this community in so many ways, by supporting the Medical Society.

To make a gift, simply use these words:

In your Trust, "Grantor directs Trustee to distribute ___% of all assets then held in Trust or later added to this Trust to the Medical Society Foundation, to be held in an endowed fund and used in the discretion of its then existing board of directors in furtherance of the purposes of the Foundation."

In your Will, "I give, devise and bequeath ___% of my Estate to the Medical Society Foundation, to be held in an endowed fund and used in the discretion of its then existing Board of Directors in furtherance of the purposes of the Foundation."

While this is not a subject that is comfortable to broach, it is an opportunity to support the Foundation which supports the Medical Society's charitable activities on behalf of the membership. Please give. You can give via a trust or will. You can give from your IRA. You can give appreciated stock, and you can give cash. Please support the organization which does so much on behalf of the medical community and the patients we serve.

Don't Forget!
Donations are tax deductible!
